Summer Projects Wind Down

As summer activities have wound down, we are now in the full swing of fall activities. Those antenna projects that somehow got put off now seem a little more urgent with the first taste of temperatures in the 30s last week. Rumor has it that Lance, WNØL has plans to have an antenna up for Joe, WAØSTV, so he can get back on the air.

Dave's Time

Also with fall comes our annual PARC Picnic coming up on Sunday, September 25. There is always plenty of food, especially those deviled eggs, so the important thing is to attend. If you have an extra lawn chair to two, throw them in the car, as the long-range forecast for the big day looks very favorable. Look for full details on the picnic elsewhere in this PARC News.

Because of the picnic there will not be a meeting at Hero's/Gambino's this month. We will return to our regular meetings on Friday, October 28th.

If you are not in the habit of reading the World Radio Magazine Online, it is at: <http://www.worldradiomagazine.com/> The October issue will be available on September 20th.

On a personal note, you have probably seen Steve, KFØMS and me both hobbling along recently on bad knees. Following Steve's lead, I am also going to have my knee fixed, except in my case it will be a replacement on October 4. Steve is just about back to normal, and I hope to be the first of November.

See you at the PARC Picnic on Sunday. *Dave T. WØNRW*

Our August Program

Radio Controlled Helicopter Is Hobby/Business

Don Fiedler brought one of his radio controlled helicopters to our August PARC meeting with a camera mounted on it.

He uses it as a hobby/business for taking aerial photos primarily for real estate and farmsteads.

He gave us a presentation and later a demonstration in the Hero's / Gambino's parking lot.

This was a very interesting presentation .

You can preview more on his helicopters at www.skyvuehelicam.com
